

Richard Kim

Richard is a client-focused litigation and trial attorney. He handles all aspects of commercial litigation, and his practice spans complex litigation including financial services, intellectual property, data and risk management, privacy, and eDiscovery.

Richard has particular expertise in managing eDiscovery and designing and implementing related policies and procedures. He combines legal strategy and technology to assist in internal investigation, subpoena and litigation response, and overall guidance on eDiscovery matters.

Richard is also a Certified Anti-Money Laundering Specialist and is currently sitting to become a Certified Information Privacy Professional.
